Dear Dave,

Thanks for the articles you put together on the Ricky White business.

Good job.

If you've kept clippings on the Oliver Stone movie and what they say and are up to down there I'd appreciate copies.

I have a feeling they have bought the rights to use Gary Mack's and Jack White's work on the Moorman picture and that basically it will be a movie on all the nut theories.

With the focus on Garrison as hero.

Thanks and best wishes,

Harold
